EG Titanium is protected by Plant Breeders Rights and an EPR of \$3.00 (+GST) per tonne applies to grain production.

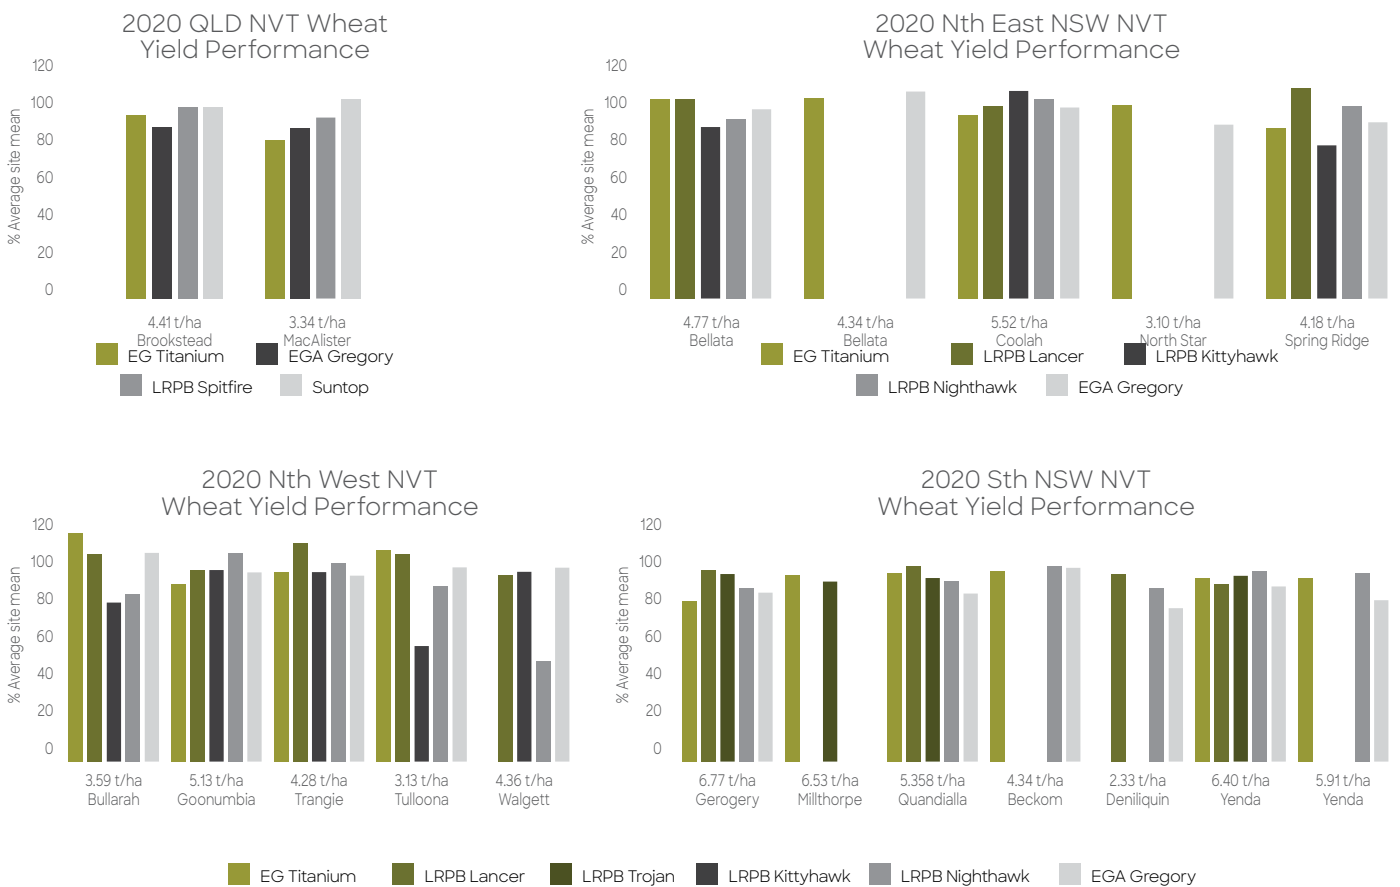

VARIETY DESCRIPTION

A full season wheat with a wide planting window which makes it well suited to an early break (early May) and main season planting in medium to high rainfall zones.

EG Titanium has excellent early vigour which assists in weed control and has excellent harvestability.

Seed Availability

Available through all national rural resellers.

Your local agronomist will be happy to assist you with more information and advice.

This variety is registered under Plant Breeders Rights (PBR) in Australia. Information provided here is a guide only. Results can vary greatly depending on climate, soil and local circumstances.
