LG Gold is protected by Plant Breeders Rights and an EPR of \$3.00 (+GST) per tonne applies to grain production.

VARIETY DESCRIPTION

LG-Gold is a high yielding AH classified wheat suited to the Inner Darling Downs of QLD and northern NSW. It is well suited to an early or late plant with good yield performance across the planting windows.

LG-Gold has demonstrated superior yield to Suntop, Spitfire and EGA Gregory with the added maturity advantage. LG-Gold produces consistently high protein and test weight with low screenings in a tight seasonal finish.

Seed Availability

Available through all national rural resellers.
